Experience

1.Associate Analyst – QA

CloudLabs Inc. | July 2026 – Present

Responsibilities:

- Working on **SAP testing** by understanding business processes and validating SAP application functionality.
- Learning and supporting **SAP modules** and enterprise application testing.
- Performing **Manual Testing** including Functional, Regression, Smoke, System, and UAT testing.
- Preparing and executing **test cases, test scenarios, and test data** based on business requirements.
- Logging, tracking, and verifying defects using **JIRA** and coordinating with developers for resolution.
- Learning and contributing to **Automation Testing** using industry-standard automation frameworks and tools.
- Validating application workflows, UI, and business logic to ensure software quality.
- Participating in **Agile/Scrum** ceremonies such as sprint planning, daily stand-ups, and retrospectives.
- Creating and maintaining test execution reports and QA documentation.
- Collaborating with cross-functional teams to ensure timely and high-quality software delivery.

2. QA / Software Tester

Preyan Infoteses, Chikhali (May 2025 – Present)

- Performed manual testing to ensure overall product quality.
- Created, executed, and optimized test cases across multiple modules.
- Identified defects and reported them clearly using tracking tools.
- Collaborated with developers to ensure timely bug fixes.
- Participated in regression, smoke, and functional testing cycles.
- Documented test results and contributed to QA process improvements.

Projects Tested

1. Webflow Projects

- Tested interactions, animations, forms, and user-flow.
- Verified responsive behavior and cross-browser compatibility.

2. Wix Projects

- Tested booking forms, eCommerce modules, dynamic pages.
- Checked UI alignment, responsiveness, and smooth user experience.

3. WordPress Projects

- Tested themes, login modules, custom pages, contact/checkout forms.
- Tested custom-built plugins for functionality and stability.
- Ensured third-party plugin compatibility.
- Conducted performance, security, and speed validation.
- Identified plugin conflicts and integration issues.

4. HTML-Based Custom Projects

- Functional testing on static pages, navigation, and form validation.
- Ensured layout consistency and proper responsiveness.

Academic Projects

- Online Stationery System – PHP (BCA)
- Hospital Management System – Laravel (MCA)
- KNTROL – Proactive Security & Compliance – Internship Project

3. Internship

Completed a Quality Assurance Internship at Kriptone IT Solutions, gaining hands-on experience in testing processes, defect reporting, and QA best practices.
